

Robust data networking.

Network design and management.

Complete Internet and e-application solutions.

Fully integrated LAN services.

(By the way, did we mention we also do voice?)

## Verizon Integrated Data and Voice Networking Solutions.

### Verizon has the integrated networking infrastructure solutions to move your business ahead.

Like a lot of businesses these days, your communications infrastructure – voice, data, Internet – is your lifeline. Reliability, responsiveness and seamless network integration are more critical to you than ever. Equally critical is the provider you rely on to get you there. All the more reason to consider Verizon.

The World-Class Network® from Verizon offers small businesses powerful voice and data solutions, like Frame Relay, Dedicated Internet access, ISDN PRI, ATM, and Channelized T-1 – solutions that you can leverage to keep your business one step ahead of the competition.

You also have the comfort of dealing with a highly reliable provider and knowledgeable representatives who can help customize an integrated communications solution that is built around your business's specific needs.

To get a free consultation on how Verizon's integrated network solutions can help move your business ahead, and to learn more about our limited-time promotional offer, either call 1-800-483-8485 or visit us at [verizon.com/smallbiz/datasolutions13](http://verizon.com/smallbiz/datasolutions13).
