For every e-mail. For every download. For every deadline. Get the **guarantee** that keeps your business running.

The only thing more reassuring than getting more powerful Internet communications, is knowing they won't let you down. With 99.9% guaranteed uptime for dedicated Internet access and 99.5% for business e-mail, you get both.

Dedicated Internet access: the high-speed connection that's always ready for business.

A full-strength solution begins with access that can handle any job. So whether it's routine large file transfers or critical data transmissions, dedicated Internet access over a T-1 Private Line gives you the push and power you need to keep your work flow moving. Plus, it's monitored 24/7 by Verizon — so your access gets the technical support and attention it needs.

Business e-mail: housed and protected by Verizon — easier to manage for you.

Business e-mail is maintained by Verizon — but you still have the control you need to add or delete boxes at any time. You even have the option to get your e-mail from any PC. Verizon also does regular updating of virus protection, so you don't have to remember to do it. Best of all, there's minimum start-up costs and no capital outlay.

Powerful solutions — guaranteed from The World Class Network®.

With one of the world's strongest networks, complete with built-in backup systems, uptime guarantees and 24/7 technical support with dedicated Internet access, Verizon will stand behind your Internet communications now — and in the future.

You can save over **\$1000** when you sign up for Verizon Dedicated Internet Access and Business E-mail before 4/30/02.
